ORIGIN

Group-owned mills

OVERVIEW

A material engineered for the harshest environments.

Icon Steel supplies stainless steel across the full range of international specifications, sourced from group-owned and audited mills, stocked in Dubai, and shipped worldwide with mill test certificates traceable to heat number. Our stainless program covers austenitic, ferritic, martensitic and precipitation-hardening families for the most demanding process, marine and architectural environments.

Every order ships with our standard documentation pack: mill test certificate, packing list, certificate of origin and customs invoice. Project-scale supply contracts and single-coil urgent releases are handled by the same technical sales desk in Dubai, with lead times measured in days, not weeks.

GRADES

Standard grades held in stock.

GRADE	FAMILY	KEY ATTRIBUTES	STANDARDS
304 / 304L	Austenitic	General purpose corrosion resistance	ASTM A240 · EN 10088
316 / 316L	Austenitic	Enhanced pitting resistance (Mo added)	ASTM A240 · A312
321	Austenitic	Ti-stabilised for elevated temperature	ASTM A240 · A213
904L	Super Austenitic	Superior resistance to reducing acids	ASTM B625 · EN 10088
Duplex 2205	Duplex	High strength · chloride SCC resistance	ASTM A240 · A790
Super Duplex 2507	Super Duplex	Sour service · deepwater applications	ASTM A240 · A790
410 / 420	Martensitic	Hardenable · wear resistance	ASTM A276
430	Ferritic	Cost-effective corrosion resistance	ASTM A240
17-4 PH	PH Grade	High strength · aerospace grade	ASTM A564 · AMS 5643

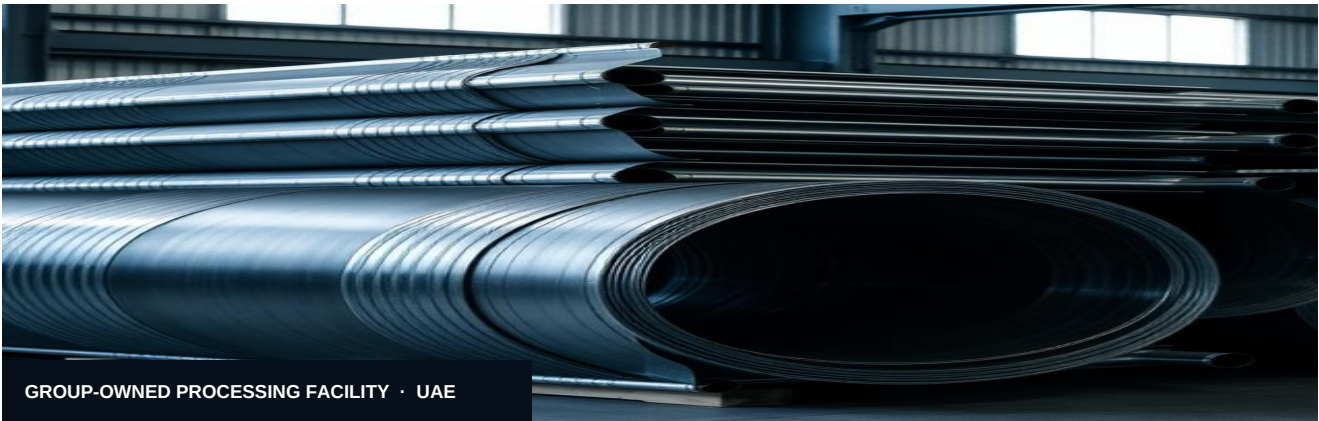

NEED A GRADE NOT LISTED?

Our sourcing desk can procure specialised grades from partner mills within 2–3 weeks.

FORMS · DIMENSIONS

Every form. Every specification.

FORM	THICKNESS / OD	WIDTH / LENGTH	FINISH / STANDARD
Sheet	0.4 – 6.0 mm	1000 · 1219 · 1500 · 2000 mm	2B · BA · No.4 · 8K
Plate	6.0 – 150 mm	1500 · 2000 · 2500 mm	Hot-rolled · Ground
Coil	0.3 – 4.0 mm	Slit to width on request	2B · BA · No.4
Pipe (Seamless)	OD 6 – 610 mm	SCH 5S – SCH XXS	ASTM A312 · A213
Pipe (Welded)	OD 6 – 1200 mm	SCH 5S – SCH 80	ASTM A312 · A358
Round Bar	Ø 6 – 400 mm	3 – 6 m lengths	Peeled · Polished · Black
Flat / Angle	Custom sizes	3 – 6 m lengths	Hot-rolled · Cold-drawn
Fittings & Flanges	1/2" – 48"	ANSI · DIN · JIS	Forged · Cast

APPLICATIONS

Where our stainless is specified.

01

Oil & Gas

Process piping, separators, sour-service vessels, subsea manifolds.

02

Marine & Offshore

Ship fittings, desalination systems, seawater cooling loops.

03

Chemical Processing

Reactors, heat exchangers, storage tanks, acid-resistant piping.

04

Food & Pharma

Hygienic tubing, sanitary vessels, dairy and beverage lines.

05

Architecture

Facades, cladding, balustrades, structural elements.

06

Power Generation

Feedwater heaters, condenser tubes, turbine components.

COMPLIANT STANDARDS

ASTM A240 · ASTM A312 · ASTM A213 · EN 10088 · EN 10216 · JIS G4304 · ASME SA-240

Mill test certificates supplied with every shipment, traceable to heat number.
